

Binoculars for
WORLDWIDE ADVENTURES

BURRIS – THE OUTDOOR ENTHUSIASTS

Here at Burris we love real challenges. One in particular involves getting our staff to their desks at all! After all, they would much rather spend their time outdoors than in the office, in spectacular natural landscapes from Alaska to Baja California or exploring the mountains, steppes and rainforests around the globe.

What our staff members see as a sort of "special leave" is at the same time the best testing and development programme

imaginable for outdoor equipment. Practically the only motivation to return from long tours is the ardent desire to transform these experiences and ideas into new outdoor products. Anyone selecting a set of Burris binoculars to accompany him or her on their own very personal adventure will discover the same thing: Our enthusiastic developers' delight for the outdoors is manifested through our development of extraordinary products.

Once an innovative piece of equipment enters production, our staff members pack their rucksacks and depart on new adventures to put the binoculars to the acid test. Once it's all over and they return, they are convinced there is no adventure Burris binoculars can't handle. The long days spent at a desk are in turn shaped by the desire to create yet more innovations to ensure the legendary reputation of the Burris brand is always on the cutting edge.

GUARANTEED QUALITY

Burris binoculars are manufactured to meet strict quality standards and offer you the highest level of durability and dependability. For this reason, each set of Burris binoculars comes with a comprehensive 10-year warranty.

MONTANA

The premium line for ambitious wildlife and field observation

COLORADO

Multifunctional and especially handy – simply indispensable when travelling and for all outdoor activities

CARIBBEAN

Ideal for navigation and observation – the line for water sports

MONTANA

MONTANA
