

Parrot POT

The genius pot that waters your plants when you cannot

The smart pot that cares for your plants.

Parrot Pot is a connected pot that helps you keep your plants healthy. It has a smart watering system and 4 sensors that continuously monitor your plant's needs.

Enjoy stress-free gardening!

Perfect Drop

After a few watering cycles, Parrot Pot understands what your plant needs and adapts to its water consumption.

The automatic watering system encourages your plant's growth, giving it exactly the right amount of water at exactly the right time.

Plant Sitter

Parrot Pot optimises water consumption, providing up to one month of unattended automatic watering.

Watering is adjusted in order to keep your plant alive while you are away.

With Parrot Pot, you can go on holiday safe in the knowledge that you will find your plant thriving when you return.

Plant Expert

With 4 embedded sensors, Parrot Pot takes accurate, real-time measurements of data that is vital to your plant's health: sunlight, fertiliser level, temperature and soil moisture.

Receive personalised advice about your plant's health as well as alerts when a critical level has been reached. For example, Parrot Pot will tell you when to add fertiliser or when to move your plant to a different level of light exposure.

Flower Power

Monitoring on your smartphone or tablet

Parrot Pot can water your plants automatically, with no action needed from you or the mobile app.

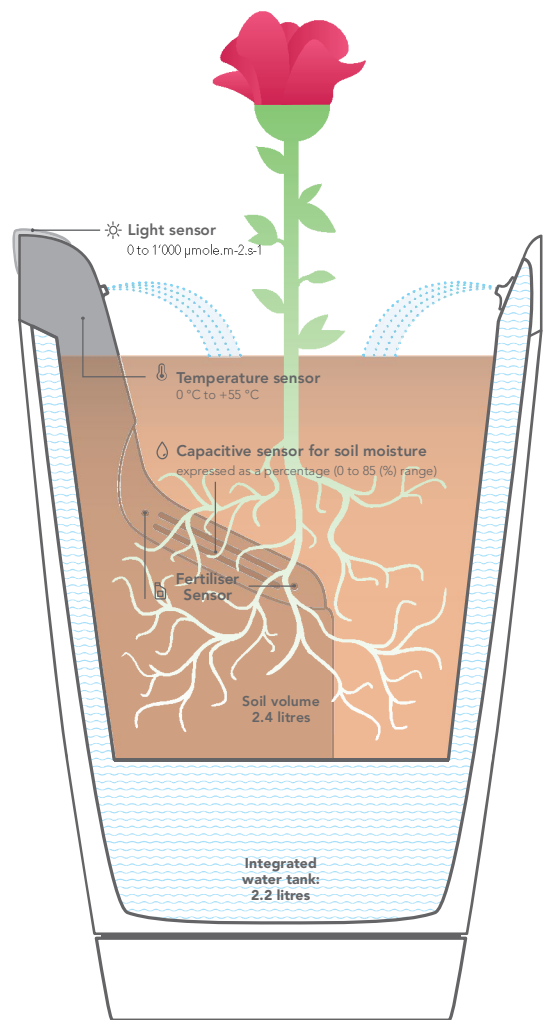

Download the free Parrot Flower Power app to your smartphone or tablet for advanced monitoring of your plant's health: sunlight, temperature, fertiliser level, soil moisture and water tank level.

You can also select your preferred watering method (Manual, Perfect Drop, Plant Sitter or Custom).

Receive real-time alerts and advice when your plant needs extra attention.

Database of more than 8,000 plants

You will find expert advice from the best international botanists to help you optimise your plant's growth.

Suitable for indoor and outdoor use

Parrot Pot is autonomous and wireless, and is powered by 4 AA batteries. You can place it indoors, on your terrace, in your garden or at the office.

It requires minimal maintenance thanks to its rigid ABS covering and anti-UV treatment.

Technical specifications

Sensors

- Capacitive sensor for soil moisture, expressed as a percentage (0 to 85 (%) range)
- Conductive sensor for fertiliser content
- Light sensor:
0 to 1'000 $\mu\text{mole.m}^{-2}.\text{s}^{-1}$
- Air temperature sensor:
0 °C to +55 °C
- Water resistant
(IPx5 rated)

Uses

- Operating temperature 0 °C to 55 °C
- Materials: ABS plastic, PP, rubber
- LED status (Red, green)
- Integrated water tank: 2.2 litres
- Soil volume 2.4 litres
- Power: 4 AA batteries

Connectivity & application

- Bluetooth® Smart/Bluetooth V4.0 BLE connection
- Free Parrot Flower Power app
- Web API and Bluetooth for developers

Box contents

- 1 x Parrot Pot
- 1 x Quick user guide
- 4 x AA batteries

Weight and dimensions

- Dimensions: 205.4 mm (diam) x 312 mm (height)
- 1,5 kg (incl. batteries)
