

Soundcore is Anker's audio brand. Their signature sound is loved by 20 million+ people around the world. Hear it, feel it.

Soundcore Liberty Air 2 Earbuds

True wireless earphones with 4 microphones with uplink noise cancellation for premium call quality

Diamond-inspired sound

Sound with exceptional accuracy and clarity. Inspired by the ultra-hard structure of diamonds, Liberty Air 2's driver domes maintain their rigidity even when vibrating at high frequencies. Music is reproduced with a 15% larger frequency bandwidth for clear treble and 2x more bass.

Perfect for Home Offices

Each earbud is equipped with two microphones and cVc 8.0 noise reduction technology. Environmental noises are reduced by 60%, while 95% of your voice is retained so you sound louder and clearer on the other end. Ideal for when you are working from home or taking conference calls.

Up to 28 Hours of Playtime

A single charge gives you a full 7 hours of listening, while the charging case extends it to 28 hours of playtime. And when the case needs a power boost, simply set it down on a wireless charger.

Fast Charging

When you're running short on time, a 10-minute charge will give you 2 hours of listening.

HearID Technology

Take the test to create a custom set of EQ settings that are optimized for your ears. HearID maps your hearing sensitivity at multiple frequencies and intelligently analyzes the results to give you a truly personalized listening experience.

22 EQ Modes

Use the Soundcore App to choose from a vast range of customized settings to get the most out of your favorite genres. Other App functions include customizing the on-ear controls and easy firmware updates

Full Touch Control

Use either earbud to control music, calls, activate voice assistants, or even power on/off.

One-Step Pairing and Bluetooth 5.0 Connectivity

Liberty Air 2 wireless earphones use Bluetooth 5.0 for a fast, strong, and ultra-stable connection.

Qualcomm aptX Audio

Ensures lossless sound transfer when streaming media from your device

Mono/Stereo Modes

Simply remove one of the earbuds from the charging case to automatically enter mono mode or remove both for stereo sound.

Customizable EarTips

Choose from 5 sizes of EarTips to find your perfect fit for enhanced passive noise cancellation and comfort.

Water-Resistant Design

Liberty Air 2's IPX5-rated protection defends your earbuds against rain, sweat and more.

Portable Size

Liberty Air 2's tiny charging case has been designed to easily fit into virtually any pocket or bag.

Note:

If using with an iPhone 11, incoming calls may cause the Bluetooth connection to drop for 2 to 4 seconds before reconnecting. Upgrade to iPhone 11/iPhone 11 Pro's latest version of iOS to ensure compatibility with Liberty Air 2.

Playtime varies according to volume and audio content.

This product cannot be connected with multiple devices at the same time.

Colour: Black / White
